RECORDS AT SANTA ANITA.

VOX POPULI DEFEATS STANLEY FAY AND BREAKS MILE AND AN EIGHTH TIME.

Fitz Herbert Wins the Garvanza Handicap and Ties the Mile Record—Colloquy Also in the List.

Los Angeles, Cal., December 19.—The racing here today was replete with sensational circumstances, the most salient of which was the breaking of the American record for one and one-eighth miles by Vox Populi, the whirlwind son of Voter, which covered the distance in 1:50. This time is three-fifths of a second faster than that made by Charles Edward and Green Seal, which held the record jointly.

In the second race Colloquy equaled the American record of 1:05 for five and one-half furlongs which was made by Fern L. at Seattle last August. Then Fitz Herbert ran a mile in time that tied the track record.

The disqualification of Waterbury in the second race was just. He crossed over and interfered with Gemmell opposite the final sixteenth post. Jockey Howard, who rode him, was fined \$200 and given a severe reprimand.

H. Smith has been reinstated and is under contract to Lynch and Savage. Twenty-six books drew in today, which equals the heaviest draw-in of last year.

The sport is gradually reaching its height, which is evidenced by the increased crowds and the larger number of books that are doing business.

Stanley Fay's defeat was probably owing to the fact that Shilling had to take him around Green Seal just before entering the stretch, losing ground at a critical stage of the race. He finished with rare courage and would have won in a few more strides.

Fitz Herbert had little trouble in annexing the Garvanza Handicap to Sam Hildreth's long list of winnings. He was not called on until turning for home, where he easily overhauled Lee Rose and held him safe all through the final sixteenth. He easily demonstrated that he is by far the best two-year-old here. Colloquy's effort was a sparkler. She barely got in in the last stride to nip out Waterbury after a great stretch outburst.

The crowd was the second largest of the season and the books did a big afternoon's business, most of them losing heavily.

LOOK FOR RACING AT NEW ORLEANS.

Lexington, Ky., December 19.—The movement for a test of the Locke law, which was inaugurated with a race at City Park last Wednesday, has kindled hope in the breasts of a horde of idle horsemen in this vicinity and elsewhere that New Orleans will again be on the racing map in the near future.

The horsemen here are aware that the Locke law has been submitted to a score of more eminent lawyers and jurists in Louisiana and other states of the Union and that all of these have said that it will not stand when it comes up for dissection in a court of competent jurisdiction. The law is alleged to be faulty in more than one particular. The caption of the bill under which it was enacted by the legislature is, they say, not in keeping with the body of the measure; it fails to annul a section in the Code Napoleon which was adopted into the constitution of the State of Louisiana under which betting on horse racing is in more than a doubtful degree sanctioned. But the chief fault is that it clearly does not prohibit bookmaking, say these attorneys, inasmuch as there is a vast difference between a betting book, the use of which is prohibited, and bookmaking, which is not mentioned at all in the law.

Under a recent decision covering the rights of a foreign corporation in the State of Louisiana, it is expected that the case will go into the United States Court at New Orleans for a final hearing, since the majority of the stock in the New Orleans Jockey Club is owned and controlled by Edward Corrigan and other non-residents of Louisiana.

So the impression prevails here that the Locke law will be knocked out and that racing will be resumed in New Orleans within the next thirty days, the two tracks alternating as in the past. This belief is so strong that W. J. Young, Dan T. Morris, W. E. Oots, Walter Grater, J. C. Milam, James P. Ross, Gallagher Brothers, Frank Grosche, W. L. Lewis and several others owning and training considerably more than 100 horses at the Kentucky Association track are now actively engaged in getting ready for shipment as soon as the word is passed that racing is to be resumed. There will be no trouble about getting horses enough for the racing when the tracks are re-opened.

TROTTING MAN BUYS THOROUGHBREDS.

Lexington, Ky., December 19.—Clem Beachey, Jr., who has developed, raced and sold many a real good trotter and pacer in his time, has lately added a couple of thoroughbreds to his possessions. One is the young mare, Elude, by Lissak—Elusive. Elude is a half-sister to Juggler and Petticoat. Mr. Beachey bought her from Dr. Ed Hazard. He backed her in a winning race when she opened at 30 to 1 and closed at 18 to 1, and cleaned up nearly \$10,000 as the result of her victory. He has broken her to harness, but has not driven her lately because of the fact that she is in foal to McGee. The other thoroughbred in the Beachey collection is a colt, a coming two-year-old, by Frankfort—My Sunny South. This colt is being trained by George Mills, and is counted one of the real good ones hereabouts. A short while back he worked a quarter around twenty-three seconds, with weight up, and Mr. Beachey a few days later refused an offer of \$1,200 for him. "I do not think I'll sell him at all," said he. "If he is worth \$1,200 to the other fellow now he'll be worth double that to me next spring, unless he breaks a leg."

Mode Nicoll has purchased Mexican from R. T. Wilson, Jr., and says it is his intention to send the son of Mirthful—Landing back to the tracks. Mexican has been in the stud for the past two seasons and has five coming two-year-olds to represent him next year. He will be nine years old January 1, and Nicoll says it is a cinch that he will stand training again.

RACING FLOURISHING DESPITE COLD.

San Antonio, Tex., December 19.—Cold and threatening weather detracted from the success of today's racing, but a large attendance was again present and speculation was fairly brisk. At today's draw-in only eleven books decided to quote prices. S. Woolfsohn, the Chicago operator, deciding to try Los Angeles, quit the ranks here.

In the opening race King Wilda, the favorite, unsaddled his rider while at the post and ran away three miles before he was caught. Under the rules here, that a horse becomes a starter when his groom delivers him on the track, his backers were forced to see their money go glimmering. Jockey Wroson, who had the mount, had several of his back teeth knocked out and sustained minor injuries about the body as a result of the horse stepping on him.

The horsemen in this section are becoming sanguine that New Orleans will furnish the next racing center for them.

WHAT MONFORT AND MATES WON FOR THE MONTPELIER STABLE

The R. T. Wilson, Jr., horses were raced this year in the name of the Montpelier Stable, because of a death in his family. The stable did very well, although its aggregate earnings were less than its \$59,850 in 1907 and \$56,960 in 1906. The good horse Monfort was the star of the stable and was first or second in seventeen races out of twenty-six, being unplaced but four times. Among his triumphs were the Saratoga Handicap, Thistle Stakes, Aqueduct Handicap and Stonybrook Stakes and he was in all respects a racer worthy of a place in any stable. Of three three-year-olds in the stable Falceda did best in the important matter of money winning, but hardly ran up to the best promise of his two-year-old form. As a two-year-old Beaupont once made the mighty Collin stretch his neck in earnest, but did nothing comparably last year, although he paid his way respectably. Red River, Altheus, Alauda, Sanguine and Chepontue were all respectable contributors to stable expenses and the record of the stable was as follows:

Horse.	Age.	Pedigree.	Sts.	1st.	2d.	3d.	Unp.	Won.

EARNINGS OF MEDIANT AND OTHERS OF THE DURYEA STABLE

It was due mainly to the high-bred and fleet filly, Mediant, that Herman B. Duryea occupies a respectable position among the winning owners of 1908. This fine filly is now in England and if she shares in the characteristic Meddler family trait of improving with age, may win the respect of English owners, a tribe quick in recognizing a good racer, come from where it may. Anyway, a daughter of the unbeaten English two-year-old, Meddler, and the Cambridgehire, Ballad, is not likely to escape attention. She was in the first flight of our two-year-olds and gave a notable exhibition of speed in the Great Eastern Handicap when she won from start to finish from such cracks as Field Mouse, Robbin, Fitz Herbert, Perseus, Statesman, Lady Bedford and Hilarious. Next to Mediant as a money earner was the last Hamburg horse, Dreamer. Ben Ban and Running Water were disappointments, but paid for their keeping. Intervene, Marathon and The Gardener were helpful and the stable earnings were:

ASK GOVERNOR TO CALL SPECIAL SESSION.

New Orleans, La., December 19.—The effort of the business and commercial interests of New Orleans to secure either a repeal or a modification of the stringent Locke anti-gambling law, took definite shape today and the petition, which has been signed by almost every commercial interest in the Canal Street district, will be carried to Baton Rouge and laid before Governor Sanders, with the appeal that he call an extra session of the legislature to modify the law.

Today's developments emphasized the desire in this city among business men to have the Locke law changed. They say the city is feeling the eradication of racing very keenly. The hotels, restaurants and business houses are running far short in receipts of this time last year and every other year when the races came with the advent of Thanksgiving.

Governor Sanders has refused to discuss this latest phase of the racing fight until it has come up to him officially. In discussing the arrest of the promoters of the test race at City Park the other day he declared: "In my opinion the Locke law is constitutional and the local authorities will enforce it."

It was reported tonight that already a thousand names had been secured to the petition for a modification of the law.

It would cost \$35,000 to call and hold a special session of the legislature and many question the wisdom of this expense. However, there has been talk of an extra session early in January to consider the problem with the promoters of the racing repeal now here to work the two together.

Edward Corrigan, who has been charged along with President Heaslip with being a party to the City Park test, has telegraphed the Hotel Grunwald that he will arrive Monday. The arraignment of all parties to the fight will take place Monday morning.

JOCKEY GARNER NOT GOING ABROAD.

New York, December 19.—Jockey Garner is still in town and it is reported that he will go to Savannah to ride at the meeting which commences there Christmas Day. While Eugene Leigh was here it was said that Garner had signed a contract to ride for that horseman in France next season, but it seems now that there was some hitch in the arrangements and it is a question whether he will go abroad or remain and ride here next year.

Thomas Welsh paid a visit to the Hyman farm at Stamford, Conn., a few days ago and was well pleased with the appearance of McCarter, Preceptor and other horses of the Newcastle Stable left in charge of Hyman.

Senor Terrazas and W. H. Kraft have departed for Mexico after having contemplated the business in connection with the establishment of racing in Mexico. Matt Winn also left for his home in Kentucky, but will go to Mexico shortly after the holidays to prepare for the construction of the courses contemplated in the venture.

The horses belonging to J. R. Wainwright were shipped to Montgomery Park, Memphis, Tenn., in charge of trainer Luzader, who will have them ready in case racing is resumed at Hot Springs.

W. A. Pinkerton, while at Memphis, Tenn., is reported to have said that brighter times are in store for turf followers. He believes, he said, that the crest of the so-called reform wave will be reached with the defeat of the anti-betting element on the coast.

PROBABLE CANADIAN RACING DATES.

Toronto, Ont., December 19.—While as yet no specific dates for next season's racing have been selected for the different Canadian turf clubs, the following is considered the most likely program. Toronto, it is said, will usually open on Saturday, May 22, and then will follow Hamilton, which will not clash with Montreal as it did last year, the latter coming after the Hamilton meeting. After the Blue Bonnets meeting, which will run the usual thirteen days, Port Erie will begin and continue for twenty days, after which Windsor will have a meeting of similar length. Then the horses will return to Port Erie, going thence in turn to Montreal, Toronto and Hamilton, with an autumn meeting at Windsor later.

NO HOSTILE FRENCH RULE AGAINST ALIENS.

The Paris correspondent of the London Sportsman says the announcement that the French Jockey Club had passed a rule refusing a license to a trainer or jockey who had not resided in France for a year or more prior to his application was never made and stamps it as a fish story, contrary to all ideas of French hospitality and against all traditions of the various racing societies. He says:

"The fish stories are being manufactured on this side of the great dam, and the Paris correspondents, with their English colleagues of an American sporting journal, have invented the sensational announcement that the French Jockey Club has declared that it would not grant a license to any trainer or jockey who had not been domiciled in France for a period of three years prior to his application." It seems strange that the official Calendar should make no mention of such a restriction. For some time past the Société d'Encouragement, confounded by those who ought to know better with the French Jockey Club, has published a report of each sitting and each deliberation in the Bulletin Officiel which comes to us each week. It has remained dumb respecting the sensational announcement which comes as a surprise from the other side of the Atlantic, without reflecting any enormous amount of credit on its originators. Additional paragraphs have from time to time been incorporated in the Reports of the Société d'Encouragement and of the Steeplechase Society, which have given stewards, as well as the respective race committees, power to grant or refuse a license to any trainer or jockey for the purpose of eliminating undesirable persons from following their doubtful avocations, but any such sweeping action as that suggested by the overwrought brain of a Paris correspondent would be contrary to the ideas of French hospitality, as well as the traditions of the different societies."

STATISTICS OF ITALIAN RACING.

Statistics have been furnished showing the development of racing in Italy. The flat racing budget amounted to \$289,920, of which nearly \$200,000 was added by the different racing societies and the balance by the king of Italy and the different municipalities. Only one horse, Demetrio, by Clairon, out of \$190,000, belonging to Prince Donia Pamphili, winner of the Prix Paroli and the Derby and Omium at Rome, has won over \$20,940. He is followed on the list of winners by another three-year-old, Brimo, belonging to the Besnate Stud, with \$19,550, and then comes Oul Vise, by Merlin, out of the French horse, Tramut, by Tante, out of Laure, of Quelquefois, which secured for his owner, M. Albert Chantre, \$9,085. Acacia, bought out of the stable of Mr. W. K. Vanderbilt, and by Halma, out of Promenade, bought by Prince Delia, returned her owner \$8,140, and then fifth on the list comes Pioneer, sent up by his trainer, the late Aleck Waugh, to run for Sir Rhodan in the Prix du Conseil Municipal of 1907. Ukamba, a two-year-old filly out of the same stable, has proved the ability of the late trainer for the stable by showing the best and most consistent form. She is a daughter of Melanion, out of Kikamba, and has won seven out of the eight races in which she has run. The cross-country budget is not a very large one, amounting simply to \$58,000, of which \$4,520 fell to the hands of the winners. The winner of the Grand Steeplechase at Milan, L. Spencer stands at the top of the list of winning jockeys, and is followed by Emery, Jacobs, Varga, A. Childs, Wicks, Bartlett, Goddard, E. Crikmore, Beckwith, P. Smith, Rhymes, Woodcock, Blackburn, F. Turner, Rossi, Reid, Cassola, Hemming and Wright.

CASHIER OWNER OF RACE HORSES.

Cincinnati, O., December 19.—A jury in Judge Stephens' court in Covington, Ky., ordered constable Ben Biedenhorn to turn over to C. D. Orites two race horses, known as Inela and Automatic, which he attached in a suit brought by Fred Stahlman against M. A. Neff to recover from the latter \$190 alleged to be due on a note. It developed from attorney Frank M. Tracy's cross-examination of Neff that Crites was the real owner of the horses, and that he had them in Neff's name, as Crites, who is cashier of a bank at Lima, Ohio, did not want it known that he owned race horses. Tracy represented the plaintiff.

RESTIGOUCHE FIRST AGAIN.

REACHES OAKLAND JUST IN TIME TO WIN THE SACRAMENTO HANDICAP.

Firestone an Unlucky Favorite—Pajarito Defeats Smiley Corbett and Roseben Runs Unplaced Behind Them.

San Francisco, Cal., December 19.—Restigouche, an added starter just off the cars from Los Angeles, won the Sacramento Handicap at Oakland today from six of the best horses in local training. Hildreth's gelding, which was as good as 5 to 1 in the betting, got away last but ran to the front in the first sixteenth and won all the way. It was a wonderfully good performance for the gelding from the viewpoint of weight carried, ease of accomplishment and the fast time in which the mile and a sixteenth was covered. Restigouche, which left Santa Anita late Friday night and arrived at the Oakland track just in time to be saddled for the big race, was thought to be up against it, and was practically ignored by the local speculative inclined public.

Support centered principally on Firestone, fresh from his victory over Roseben, and the Ellison pair, Royal Tourist and Don Enrique. The odds about Dorante and Eyebright receded steadily with few takers at 6 and 10 to 1 respectively. A big stable commission was sent in on the winner just before post time forcing his price down from 5 to 1 to 18 to 5. After five minutes of unruly behavior at the post the start found Firestone away in the lead, but not in his stride as horse after horse passed him rapidly on the outside until beginning the last five furlongs of the journey he was last. From there on, while on the extreme outside, the favorite put forth a fast and game but unavailing effort to get up, finishing a close fourth, beaten a nose for third money and going fastest of all. The result was so unexpected that the 10,000 spectators present were stunned into absolute silence. But it was only for a moment, as a storm of applause greeted the winner and his alert jockey on their return to the grandstand. Dorante was the runner-up in a particularly brilliant effort, with Eyebright a good third.

The Moore Handicap, an equally attractive feature at a sprinting distance, was decided at the close. Eight of the fastest sprinters in the country were engaged, including Roseben, Berry Maid, Smiley Corbett, Pajarito, W. T. Overton and Sugarmaid. As was expected the race developed into a sensational struggle, but Roseben, with his 140 pounds, was never a factor, the result being confined wholly to Pajarito and Smiley Corbett, which between them dominated the running throughout. The first named prevailed at the end in the last time for the Futurity course of 1:00 1/2. The market was weak where Roseben was concerned, showing weakness from the start, the odds about "The Big Train" receding from 4 to 5 to 6 to 5, and his defeat was received with complete indifference by race-goers. His race, however, was far from bad, recent and longer distance racing in the mud under a light burden having undoubtedly dulled his speed, and he found him unable to keep up with the dazzling race on this occasion. At the end he was holding his own valiantly.

ANYDAY TO MATE WITH DICK WELLES.

Lexington, Ky., December 19.—Fletcher Driver has been invited by J. B. Respass to send his good mare, Anyday (dam of Floreal, and sister to Calman), to the coon of Dick Welles next spring, and he will accept the invitation. Anyday is eight years old, by Leconchatche—Happy Day, and was bred at the Ranocas Stud in New Jersey. She was raced by Myron McHenry and was a winner. Mr. Driver purchased her from McHenry in the winter of 1904, and made her the following spring with Alloway. The result in 1904 was Floreal, a good winner this year, probably the best of the eligibles to the Kentucky Oaks, to be run at Louisville next spring. Floreal is now running out at Walnut Hill. She will be taken up about February 1st, and put in training over the farm track. Mr. Driver weighed her one day this week and she balanced the beam at 1,060 pounds, a gain of 120 pounds in thirty days. Floreal is a fine, big filly, with plenty of bone to carry her weight and is uncommonly speedy. Anyday's foal, a son of the American mile record holder, is a filly by Hermene, the sire of Hermis. She was tried out at the farm about forty days ago and showed a quarter in better than 24 seconds. Anyday's foal this year is a filly by Goldcrest, and is a splendid looking youngster. Anyday is now in foal to Nasturion, and a colt or filly is expected from her March 15, shortly after which date she will be sent to Mr. Respass' Ohio farm.

Calman, a brother to Anyday, was one of the speediest horses known to the turf. He holds the one mile straight record at 1:34, made at Lingfield Park, England, July 13, 1900, he having been sent abroad from the Ranocas Stud to race in the colors of Mr. Lorillard. This kinship, together with the knowledge of Floreal's performance, and a colt or filly year on the turf, caused Mr. Respass to seek a mating of Anyday with Dick Welles.

"I imagine," said he to Mr. Driver, a few days ago, "that the produce of a sister to the holder of the English mile record from the last year, and a colt or filly of the first quality as to speed. At any rate, most any turfman would like mighty well to take a chance on training a filly from this union."

FEATURES OF THE BELGIAN TURF.

The last flat race meeting of the year in Belgium took place at Dilbeek. It will be good news to his friends in England to know that jockey Henry was back again and riding in the last racing week. He will now have a good long rest, and it is to be hoped that he will completely recover his health and fine form. Unfortunately he has lost through his accident the premier position on the winning jockeys' list which he has held so long, but he is only thirteen behind Kechov, the native rider, who is at the top with 119 winning rides. Shade is third with seventy-eight and Lucien Lyne fourth with sixty-seven, but it must be remembered that Lyne only came over when the season was half over. George Ashman heads the winning trainers' list. He has run horses 568 times during the season and won 106 races, which is not bad. James Breze has, however, a better average. He has run 284 times and won ninety races. Vandesteene, who trains the horses managed by M. de Neuter, has won ninety-four races out of 462. Stanton has won seventy-four races and Sharpe seventy-two.

In order to assist the breeders in Belgium, the Jockey Club of that country takes a number of subscriptions every year to high-class stallions in France and places them without fee at the disposal of owners of thoroughbred mares. This year the services of Wildfowler, Elf, Rabelais and Son 6 Mine has been retained, and these are available for mares not more than nine years old, that have won at least \$10,000 in flat races during their turf career, or have produced the winner of a weight-for-age race worth at least \$2,000. In the case of too many applications being received for mares fulfilling these conditions, lots will be drawn in order to make a selection. The Belgian Jockey Club has also taken other subscriptions to Le Samaritain, Son o' Mine and Elf, which will be put up at auction, but mares which are over nine years of age or have been barren in 1906 and 1907 will not be eligible for service. The drawing and the auction will take place at the Jockey Club rooms on December 21, in the presence of the interested parties.

NOTES OF THE TURF.

O. Johnson has purchased Traffic, Andoche and Miss Modesty, all of which are now at the Oakland track, where they will race under their new owner's colors.

H. Michaelson, the treasurer of the Union Jockey Club, the governing turf body of Germany, died recently at his home in Berlin. Mr. Michaelson was well known for his affability to all who came in contact with him and his death is regretted by all German turfmen.

The leading owners on the English turf for the past five years were: Major E. Loder in 1904, with \$99,495; W. H. Walker in 1905, with \$118,435; the late Lord Derby in 1906, with \$164,630; W. H. Walker in 1907, with \$89,550, and J. B. Joel in 1908, with \$131,230.

H. J. Barnato, a well-known South African financier and owner of race horses, died at London, England, November 30. Mr. Barnato was the owner of the great racer, Sir Geoffrey, which won the Lincolnshire Handicap in 1900. He was sixty years of age and death was the result of heart disease.

At a sale on the farm of Nicholas Brown, near Pickering, Ont., on Tuesday, Princess Edna, by St. Mark, in foal to Halding, was sold to John Bearman for \$115. Millmark, by Millbrook—Princess Edna, a three-year-old, went to Samuel Mussen for \$110. Milledna, two-year-old, was bought by W. Ward for \$80.

The figures under "Rec." in above entries show the best time made by the horse at the distance, with weight carried, since January 1, 1906. This time is not necessarily made by a winner. It may be the estimated time of a losing performance.

Winner—Ch. g. by Toddington—Suspicion (trained by W. Reed).
Went to post at 1:47. At post 2 minutes. Start good. Won easily; second and third driving Raconteur decisively outbrake, outpaced and outclassed his opposition. Priceless Jewel ran in forward persistent pursuit throughout and was a fast going fourth. Spohn, after nearest early pursuit, tried the

to the outside for a clear course, then moved up fast after entering the stretch, faltered for an instant when opposite the final eighth post under a lash from the whip, but steadied down to his work and, finishing fast under a fierce drive, would have won in a few more strides. Green Seal fell away just before entering the stretch after setting a terrific pace.

Overweights—Cloyne, 24 pounds.

78772 FOURTH RACE—1 Mile. (72426—1:374—3—108.) Garvanza Handicap. \$1,500 added. 2-year-olds. Net value to winner \$1,770.

Winner—B. c. by Ethelbert—Morganatic (trained by S. C. Hildreth).
Went to post at 3:00. At post 1 minute. Start good. Won easily; second and third driving. Fitz Herbert was into the stretch, where he quickly closed up on Lee Rose and, coming fast in the final sixteenth, won going away. Lee Rose showed great speed throughout and finished fast and gamely, but had no chance to beat the winner. Gerrymander ran well and, in a long stretch drive, finished resolutely. Fair Annie closed a gap and came with a rush at the end. Dr. Holzberg went well for six furlongs. Friend Harry ran disappointingly.

Scratched—(78689) Roy T. 95; (78632) Brooklyn, 100.

Winner—Br. g. by Charade—Fruit of the Loom (trained by W. Walker).
Went to post at 3:35. At post 2 minutes. Start good. Won easily; second and third driving. Henry O. trailed close up until just after passing the far turn, where he moved up and, going on the outside of the others and coming fast in the final eighth, won going away. Alma Dufour, always close up, moved up fast after entering the stretch and stood the last eighth drive gamely. Arcourt found the route too far, tiring fast after showing much the most early speed. Beauliere ran a bad race and tired fast after turning for home. Canique went well for seven and a half furlongs. The winner was entered for \$400; no bid.

Overweights—Alma Dufour, 24 pounds.

Winner—Br. g. by Register—Nena George (trained by W. P. Maxwell).
Went to post at 4:05. At post 5 minutes. Start good. Won easily; second and third driving. Taylor George was reserved close up to the stretch, then came fast when well straightened for home and easily passed Ravarla in the final sixteenth. Ravarla set a hot pace throughout and finished gamely. Grande Dame raced forwardly throughout, tiring only in the last few strides. Burghier was in a hopeless pocket next to the rail after passing the far turn and did not get clear until an eighth out, from where he finished with a rush, but too late. Hazelthorpe showed early speed. The winner was entered for \$500; no bid.

PROGRESS OF RACING AT HAVANA.

Cubans Taking Increasing Interest in the Sport and Several Buy Horses.

Havana, Cuba, December 14.—The meeting at the Almendares course of the Cuban Jockey Club is progressing towards a point that warrants the assertion that next season a really high-class meeting will be given in Cuba. It is the intention of the club to remove the present plant, but for the time being its requirements are found fully satisfactory. At that considerable money has been spent and the association is now reaping the reward of the money which it laid out this fall in improvements. The attendance since the opening has been increasing. On Sunday last fully 4,000 persons witnessed the racing. All of the races proved keen contests, a majority of the winners being under hard drives to win by small margins.

Just at present there are four racing days a week. The idea is to race every day beginning December 21. The purses, too, will be increased and on Sundays seven races will be given. Every one is well satisfied with the outlook and there are enough horses here to warrant every owner getting his share of the money. Cuba has come to stay. This is evidenced by the increasing interest which is taken in the racing on each successive day. The first two days of the meeting there was but little enthusiasm shown, but now the close finishes cause no end of betting from the backers of the horses which happen to be in the first flight. The Cubans are quick to catch on and are the greatest gamblers on earth. They will bet on anything and it is a common sight to see several newsboys squatted down a street corner with a piece of sugar in front of each one. They make up a pool and the owner of the cone of sugar on which a fly lands first gets the money. The mutual system of betting appears to be the most popular here and the machines get a great patronage. On Sunday last the four machines could not come near to handling the business, and about twenty-five per cent. of those wishing to bet were crowded out. The books, however, have not by any means been neglected. Stoney Abrams handled \$5,000 and Charley Jones \$4,000 on Sunday. The books had their share of the business, too, so that it can easily be seen that the business is a good one.

Applications are being received every few days from horsemen asking for stalls and the club found it necessary to erect a number of new stables to accommodate the late arrivals. There is a native grass which they like very much and horsemen say that they will leave a bundle of hay to eat this grass when it is placed in the stalls. There is any amount of fine pasture and the water is clear as crystal. The Almendares course borders on the Gulf of Mexico and is only a short distance from Havana. The trolley cars run direct to the course. There are a number of high-class cubans here who are anxious to go in for racing. Several of them have purchased horses recently, Eustacia and Trey of Spades being a couple that have changed hands. Both horses were purchased by local men. Trey of Spades has been a Hindoo since his arrival. He has a clean record up to date, having won the three races in which he started.

Young Hinchcliffe, who was sent here by Captain W. F. Presgrave for a winter's experience, has been improving right along. He has ridden several winners and is now in charge of the stable. He has ridden Trey of Spades in all of his races and has succeeded in keeping the horse straight. Trey of Spades is inclined to bear out and needs a good, strong rider to make him do his best. By next spring, when the stable is ready, Hinchcliffe should have developed into a good jockey.

D. Hall came here from New Orleans, but Secretary Gerhardt has refused to permit him to accept mounts. The management is determined to keep the racing clean and above suspicion, they realizing that this is the only way to make the sport popular here. The racing has been clean and spirited. New stables are constantly arriving, the latest to get in being a division of the stable which W. Gerst raced at Baltimore. The horses are in charge of James Frayling and jockey Ober will be in charge of the riding. Word was received from New York asking the whereabouts of jockey Louie Smith. He is wanted by Louis Silvers to go to Peru and ride for a prominent turfman there.

A report was sent out from here by enemies of the association that the meeting would not run out the sixty days advertised, and the incentive of this was jealousy. The Cuban Racing Association holds the only racing concession on the island and it has yet ten years to run. There are many who have been looking with longing eyes on this valuable asset and they have been knocking the meeting, with the idea of leading those not in a position to know, to believe that it is a frost. As a matter of fact the management has no intention of giving up the sport until it is their intention to race seven days a week.

On Thursday next the first hurdle race of the meeting will be run, and this feature is expected to prove a strong drawing card with the Cubans. There are a number of good horses here and a field of six or seven will probably go to the post. Thursday will also be ladies' day, and the big grandstand is expected to be backed on that occasion.

Since his arrival here Sam Parmer has disposed of his half-interest in Dr. Booth, a two-year-old, a brother to Notastula. A. Brown, of Nashville, bought out Parmer's half-interest, paying \$2,500 for the same. During the past season the firm refused an offer of \$6,000 for the colt. At Latonia this fall Dr. Booth worked six furlongs three times in better than 1:15, and was the favorite for the Kentucky Derby. Rain came up and spoiled the contemplated coup.

The mare, French Nun, which was brought here by A. Baxter, has gone wrong in line of her knees and has been thrown out of the stable. Her owner considered this mare the best of his string and had hopes of winning a number of races with her here this winter. She has been blistered and it may be that she will round to again during the latter part of next month.

The Tramp, a jumper which came here with the Texas shipment, met with a mishap the other day. While being galloped over the track in the morning he bolted against the fence and, breaking one of his legs, had to be destroyed. The climate here seems to be peculiarly adapted to livestock. There are no sick horses here, and owners claim that they are forced to do more with their horses than in the States to keep them from getting fat on the inside. All the native horses are sick and round as apples. There is a lot of nutrition in the native grasses and already some of the horsemen are feeding their stock with it. The horses like it and do well on it, and this means a great saving, as the cost of feed here is greater than in the States.

The Gerst string, which arrived Saturday morning, includes the following: Esterjoy, Sam Hoffheimer, Yumuri, May Brennan, Gowanga, Oriental Queen, Mexia, Mollie Moonshine, Gillford, Rose Arkle and Lord Direct. The first three are well-tried jumpers and one of them will be a starter in the hurdle race which will be given on Thursday next. The jumpers in the Gerst stable have formerly been trained by D. Pierce, but Frayling in the future will look after this Gerst stable. Frayling was at one time a well-known cross-country rider of some merit. He will be a bit handicapped here on account of having no experienced steeplechase jockey and will be forced to rely on one of his colored rubbers. Silas McClain is the only steeplechase rider in the ground and as he is under contract to H. Phippen it means that the latter will have some little advantage over the other horsemen unless one of the green boys develops into a good jockey. Frayling brought over Black Rod and Kid Roos for Sam Parmer.

Autumn Maid has been having much bad luck in her races and has invariably met with interference. This accounts for her failure to win up to date.

There is some talk of remodeling the track after the close of the present meeting and making it four furlongs. This will, it is believed, make the racing more interesting to the natives. The present track is a mile and a furlong and 100 yards, which means that the racing is robbed of its spectacular feature, something very necessary down here. The Cubans have caught on quickly, however, and the close finishes now arouse a lot of enthusiasm.

The local press is friendly to racing and the people here wish to encourage the sport. The merchants realize that the race meeting will make their winter season here one of four months instead of two months, which has heretofore been the limit. George S. Davis, P. Gallagher and Charles Lansdale are some of the new arrivals. The Cincinnati baseball team sailed for New Orleans on Friday last and this removes from the island a strong counter attraction.

LEADING JOCKEYS OF OLD ENGLAND.

Fordham and Archer's Great Feats in the Saddle—Leaders of Last Fifty Years.

Looking over the records of the leading jockeys on the English turf for the past forty years, we find some very interesting and decidedly remarkable figures. During that long period of English racing, the honor of leading the riders for the different seasons has been won by only nineteen different jockeys.

In 1860, G. Fordham, known as "the little demon," captured the leading honors with 146 wins and repeated this success in 1861, 1862, 1863, 1865, 1867, 1868, 1869 and 1871. Fordham rode over 1,500 winners during his career on the turf and, while he rode only one winner of the Derby, he has the honor of piloting four Oaks winners, besides the winners of many other valuable stakes. Fordham ranks next to the phenomenal Archer in the jockey history of the English turf. F. Archer's name first appears in the list of winning jockeys in 1872, when he finished second with 101 wins. The following year Archer for the first time finished at the top of the jockey list and then held that coveted position for twelve more years against all opposition. Besides leading the jockeys for thirteen consecutive years during which time he rode over 2,700 winners, Archer piloted home five Derby winners, four winners of the Oaks, and six winners of the St. Leger. The re-

markable career of this famous jockey has never been surpassed nor even equaled in any country, nor is there any likelihood that the future will produce his equal, much less his superior.

Another jockey who achieved considerable fame at his chosen profession was M. Cannon, who was at the head of the jockey list for six different seasons.

In 1900 the American jockey, L. Reiff, won first place, with 143 wins, and his brother, J. Reiff, finished third with 124. Among the present-day jockeys O. Madden has won the leading honor four times. W. Higgs has had the honor on two different occasions, and Danny Maher, the leader of the past season, has made an enviable record during his nine years on the English turf. The following table shows the three leading jockeys with the number of winners they rode each year from 1860 to 1908, inclusive:

HANDICAP OF JOCKEYS.

From time to time Daily Racing Form will publish a table of the comparative rating of those jockeys whose skill in the saddle has already been well demonstrated and of those who have not arrived but are promising of great excellence. The following will give these riders into four classifications, of which those admittedly in the front rank of their calling will be indicated by 100, thence downward through 95 and 90 to 80, the lowest classification being those who are admitted to the ranks of the "underlings" by the racing public. The table will also show the number of mounts, wins, seconds, thirds and unplaced from January 1, 1907, will be corrected from week to week, and is as follows:
